Re: Thank you

Dear Dave,

I can not begin to properly express the gratitude I have for you and your efforts at Aurora Sign Company. Your ability to hear our concerns and prepare a plan of action is remarkable. Small business in general is an ongoing series of problem solving and at the core of the decisions in solving those problems is cash flow. The cash flow analysis system you created for us has been an invaluable tool.

Dave, your knowledge, patience and ability to implement changes is astounding. Throughout the processes you have been able to guide us through each step in a way that makes the new system seem simple. Thank you again for enlightening our staff and allowing the company to maintain a highly professional accounting standard.

Sincerely,

Brandon Weis
